

Impact at the heart of every decision

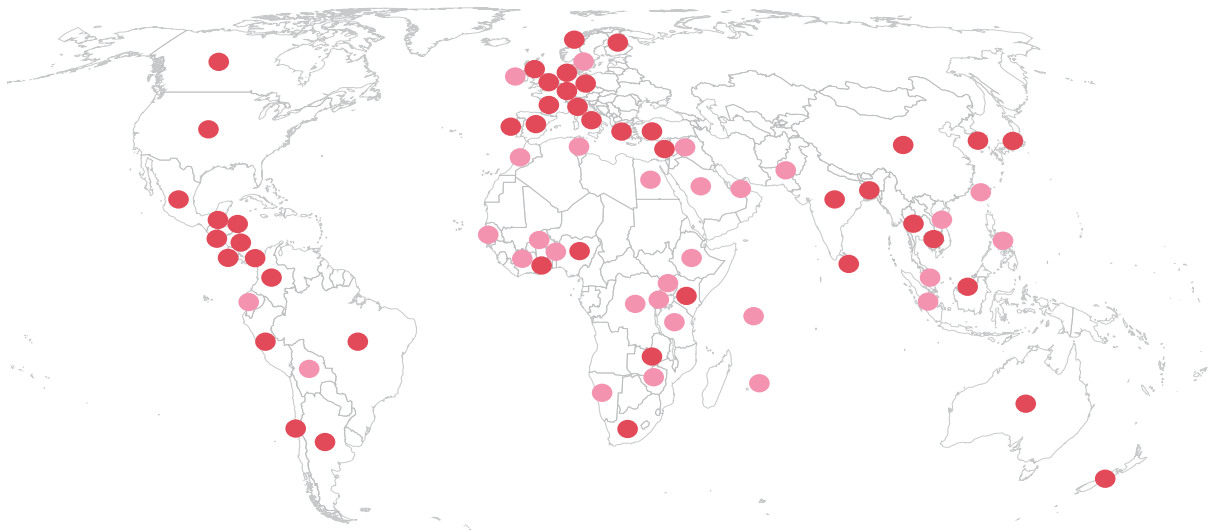

By bringing all the actors in the impact ecosystem together, country by country, GSG Impact is building impact economies where measurable, positive impact is at the core of all investment, business, consumption, and government decisions.

We are seeking new funding partners to expand our impact over the next three years.

Our mission is to build impact economies across the globe, creating the infrastructure and incentives for capital to flow for the SDGs & climate goals.

Active in over 50 countries, the GSG Impact Partnership focuses on creating a more equitable and sustainable world through collective action advancing impact. We bring together global leaders, investors, governments, regulators, social innovators and philanthropists, and harness our collective voice to advocate for impact globally.

GSG Impact's National Partners are at the heart of our movement, developing impact strategies and implementing solutions in their national and regional contexts. Together, we advance our work in close collaboration through innovation, knowledge sharing, and convening with the goal to build impact economies.
